Objective

Full Stack Developer experienced in building scalable web applications using modern technologies, with a growing focus on Agentic AI systems, multi-agent workflows, and LLM-powered applications.

Projects

Report-AgentX | *Python, LangGraph, LangChain, Groq, FastAPI, Next.js* Oct 2026

- Live: report-agentx.vercel.app
- Built an AI-powered report generation application using LangGraph to orchestrate Planner, Researcher, Analyst, and Writer agents in a structured workflow.
- Integrated Groq-powered LLMs and web research to gather information and generate structured reports.
- Implemented human-in-the-loop approval using LangGraph interrupts and checkpointing, enabling report review, feedback, and revision before final approval.
- Developed feedback-driven revisions with bounded iterations and SQLite-backed workflow persistence.
- Built a Next.js and TypeScript frontend integrated with FastAPI for report generation, review, and retrieval.

Drawgon | *Next.js, TypeScript, Tailwind CSS, Clerk, Drizzle, PostgreSQL, Excalidraw, Groq* Sep 2026 – Oct 2026

- Live: drawgonx.vercel.app
- Built a full-stack AI-powered whiteboard and diagramming platform using Excalidraw as the core canvas engine.
- Implemented AI diagram generation from natural-language prompts using Groq-backed LLMs, rendering diagrams directly on the canvas.
- Added persistent project storage using PostgreSQL and Drizzle ORM, including canvas elements and state restoration.
- Implemented project management, public read-only sharing, image export, and authentication using Clerk.

DevTinder | *React, MongoDB, Express, Tailwind CSS, DaisyUI, JWT, Redux, Socket.IO* Jul 2025 – Aug 2025

- Live: dev-tinderx.vercel.app
- Built a developer networking platform using the MERN stack with profile management and skill-based matchmaking.
- Implemented JWT authentication, password hashing, profile editing, and profile picture uploads.
- Integrated real-time messaging using Socket.IO with online/offline presence tracking.

Education

Sagar Institute of Research and Technology 2022 – 2026 **CGPA: 7.48**
Bachelor of Technology in Computer Science and Business System *Bhopal, Madhya Pradesh*

Maharishi Vidya Mandir 2022 **Percentage: 81.2**
Senior Secondary (XII), Science *Rewa, Madhya Pradesh*

Maharishi Vidya Mandir 2020 **Percentage: 82.8**
Secondary (X) *Rewa, Madhya Pradesh*

Technical Skills

Languages: JavaScript, Python, TypeScript, C++, SQL, Bash
Frameworks/Libraries: FastAPI, LangChain, LangGraph, React, Next.js, Express, Tailwind CSS, Redux, Socket.IO
AI/LLM: Agentic AI, Multi-Agent Systems, RAG, Prompt Engineering, Tool Calling, Human-in-the-Loop (HITL), Groq
Databases/ORMs: PostgreSQL, MongoDB, SQLite, Redis, Drizzle ORM, Mongoose, SQLAlchemy
Developer Tools: Git, GitHub, Docker, Postman, VS Code, Clerk, Excalidraw
