OBJECTIVE

Full Stack Developer skilled in modern web technologies, currently learning AI/ML and building real-world applications.

EDUCATION

Sagar Institute of Research and Techology <i>Bachlor of Technology in Computer Science and Business System</i>	2022 – 26 CGPA: 7.48 <i>Bhopal, Madhya Pradesh</i>
Maharishi Vidya Mandir <i>Senior Secondary (XII), Science</i>	2022 Percentage: 81.2 <i>Rewa, Madhya Pradesh</i>
Maharishi Vidya Mandir <i>Secondary (X)</i>	2020 Percentage: 82.8 <i>Rewa, Madhya Pradesh</i>

PROJECTS

DevTinder <i>ReactJs, MongoDB, Express, TailwindCSS, DaisyUI, JWT, Redux, Socket.io</i>	July 2025 – Aug 2025
- Project Link: https://dev-tinder-frontend-zeta.vercel.app/ - Built a responsive developer networking platform using MERN stack and DaisyUI for modern UI components. - Implemented JWT authentication with password hashing for secure user login and signup. - Added profile creation & editing with bio, skills, and profile picture upload support. - Designed matchmaking system to suggest developers based on skills and interests. - Integrated real-time messaging using WebSockets, including online/offline tracking.	
Second Brain <i>TypeScript, ReactJs, TailwindCSS, Redux, Express, JWT, MongoDB</i>	Aug 2025 – Aug 2025
- Project Link: https://second-brain-eta-five.vercel.app/ - Developed a TypeScript-based MERN application to act as a user's "second memory" for storing and retrieving knowledge. - Implemented category-wise organization and secure sharing of memories with others in read-only mode.	
NetflixGPT <i>ReactJs, TailwindCSS, Firebase Auth, Redux, OpenAI GPT API, TMDB API</i>	July 2025 – July 2025
- Project Link: https://netflix-gpt-kappa-beryl.vercel.app/ - Developed a Netflix-style movie platform using React & Tailwind CSS. - Integrated Firebase Authentication for secure login/signup. - Fetches real-time movie data from TMDB API. - Added AI-powered recommendations using OpenAI GPT API.	

TECHNICAL SKILLS

Languages: JavaScript, C++, TypeScript, SQL, Bash, Python
Frameworks/Libraries: React, TailwindCSS, Express, Mongoose, Redux, Socket.io, JWT
Databases: Postgre, MongoDB, Redis
Developer Tools: Git, GitHub, VS Code, Postman, Firebase
Machine Learning (Basics): NumPy, Pandas, Scikit-learn
Deep Learning (Exposure): PyTorch (basic), Neural Networks fundamentals
